Don't Boil Your Coffee

IF IT HAS BEEN PULVERIZED.

A FINELY ground coffee
should be "dripped"—
the French way of making.
To boil such coffee will embitter
it.

For boiling purposes, grind your
coffee coarse, or medium coarse.
We will grind it just as you
want it ground.

Having installed an up-to-date
Coffee Mill which will grind your
coffee the same each time thus as-
suring uniform results. Once we
know how you like your coffee
ground, we will always have it
uniform. Try Us for Coffee.
